Whenever it is necessary to install new distribution facilities, extend or reinforce existing distribution facilities, the rates and charges above are subject to the provisions of the Central Electric Co-op "Line Extension Policy."

REACTIVE POWER CHARGE

The maximum 15-minute reactive demand for the month in kilovolt-amperes in excess of 40% of the measured kilowatt demand for the same month will be billed, in addition to the above charges, at 60¢ per kvar of such excess reactive demand.

TERM OF AGREEMENT

Acceptance of service under this rate binds the irrigation customer to payment of the annual minimum charge for so long as the service remains, but under no circumstances will the term of payment be less than five (5) years.
